# FLAVOR! CO-CHAIRS

Dear Friends,

We are grateful to you for hosting or attending an event during the **FLAVOR!** Series this year!

Thrive Health Connection, formerly GSP, is celebrating 35 years of providing exceptional care in the community to those affected by HIV.

In December 2018, the organization moved to 5008 Prospect Ave., into one of the two ZIP codes in the Kansas City area with the largest population living with HIV/AIDS and the lowest life expectancy.

Proceeds from **FLAVOR!** will support services for behavioral health, and community health services, which include HIV and STI screenings, and prevention and wellness education for the greater community.

**'Thrive Health Connection has some of the highest viral load suppression numbers in the KC metro area at 93%.'** Our goal is viral suppression for all our customers. This means that individuals living with HIV who receive antiretroviral therapy (ART) and have achieved and maintained an undetectable viral load cannot sexually transmit the virus to others. Thank you for joining us to create some unforgettable experiences while supporting the work of Thrive Health Connection.

# WHAT IS

# ?

## FLAVOR! IS UNLIKE ANYTHING HAPPENING IN KC RIGHT NOW!

A series of uniquely themed dinners, parties and events scheduled between the 4th of July and Thanksgiving that take place in some of the area's most beautiful and unique homes and venues.

Generous hosts open their homes or businesses to produce everything from an intimate seated dinner or a casual backyard BBQ to a large themed soiree. Any experience is possible! 100% of ticket proceeds from each party will support the good works of Thrive Health Connection, a regional healthcare leader and influencer providing inclusive holistic and integrated health and wellness services to individuals affected by HIV and other STI's, LGBTQ communities and those seeking a welcoming and affirming health and community center.

An event may be designed as open to the public or as a private event open only to a guest list chosen by the host. Party sizes have ranged from 8 to 180 guests with tickets ranging from \$25 to \$200. Hosts cover the costs for the party and/or partner with other hosts or vendors if desired. Thrive Health Connection will happily provide support to each host with their party planning.

Promotion for public events will be managed by Thrive Health Connection through a targeted marketing campaign including the official **FLAVOR!** website and social media platforms. They will also manage ticketing and sales. For private events, assistance is available for invitations and marketing to the host's private guest list. For all parties, hosts are also encouraged to get the word out about their party through their own social media and word of mouth.

## BE A *FLAVOR!* PARTY HOST

Anyone can be a ***FLAVOR!*** host! You don't have to have mad entertaining skills -- just a desire to gather people together to connect, build relationships, have fun and make a significant contribution to a local organization that is doing great things in the fight against HIV/AIDS. First decide whether you'd like to host a private or public event, then choose a date between July 4th and Thanksgiving. Next choose a theme...simple or extravagant! Consider teaming up with a friend or partnering with a business or vendor. Thrive Health Connection will be there to help you promote your event and a representative of Thrive Health will attend your party to provide information to your guests.
